Toucan

Ramphastidae

Their **long beaks** help them **reach fruit** on tiny branches without falling!

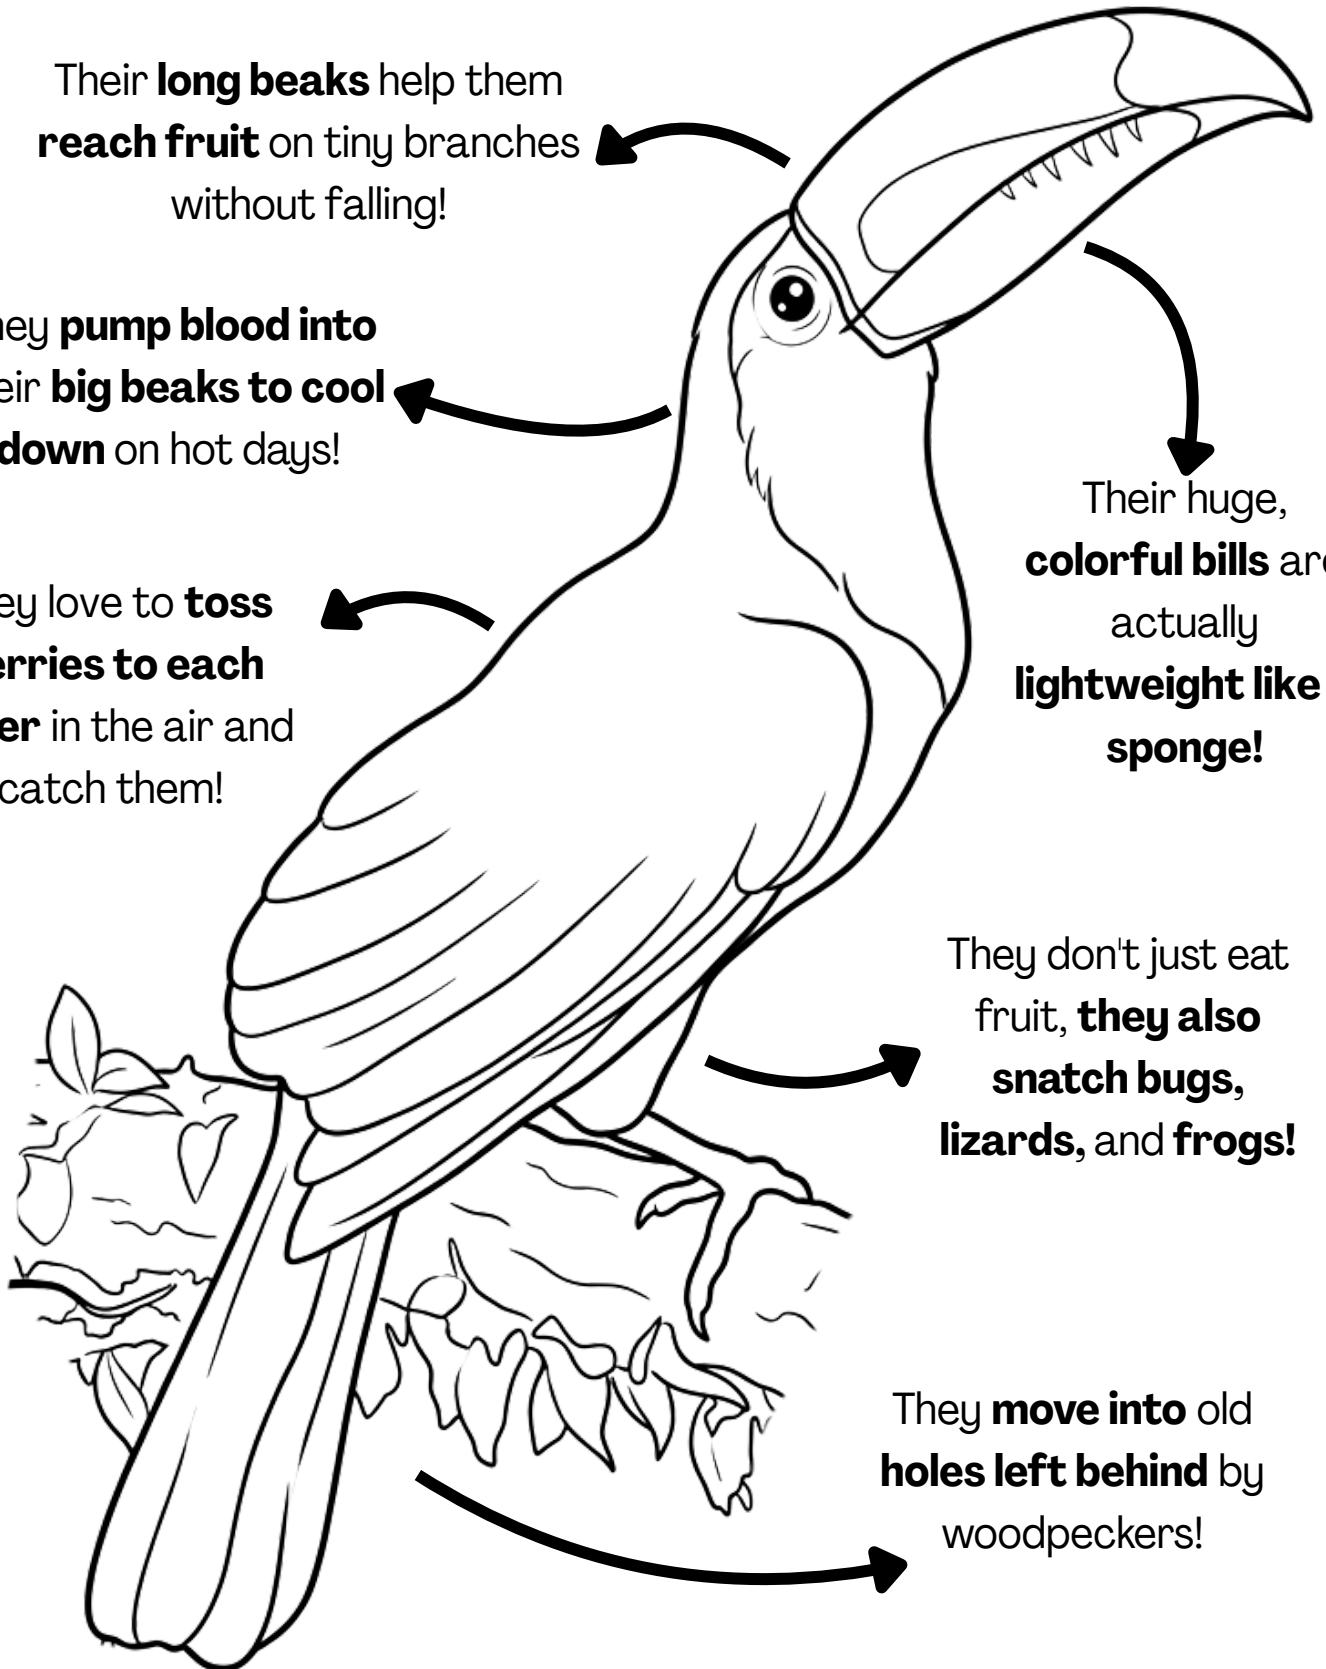

They **pump blood into** their **big beaks to cool down** on hot days!

They love to **toss berries to each other** in the air and catch them!

Their huge, **colorful bills** are actually **lightweight like a sponge!**

They don't just eat fruit, **they also snatch bugs, lizards, and frogs!**

They **move into** old **holes left behind** by woodpeckers!

Garden Birds Word Search

Easy: words go across and down
